

Hello pianists & teachers,

Summer is here!

Are you on a break or still teaching? Either way, you deserve to spend a little time at the piano playing and singing so this one is for you!

Elvis Presley's "Can't Help Falling in Love With You" has recently been enjoyed by a new audience thanks to the many ukulele covers online so it's possible your students will love it too!

Happy playing!

Rhonda

P.S. I'd love to hear from you!

Tips for teaching "Can't Help Falling in Love"

🎵 This song has more chords than most of the ones I have sent previously. I recommend moving between the chords and getting comfortable with the new ones before trying to sing.

🎵 The chorus of this song is a big change from the verse. Make sure students are aware of the repeating Em & B7 chords before you get there!
